### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with John Fitzgerald on February 1, 2006.

The application has been amended as follows:

In claim 19, please replace the phrase "ophthalmic lens" with

-- elastomer --.

In claim 24, please remove the word "lens".

Applicant had been advised of antecedent basis problems in claims 19 and 24 insofar as they recited a lens whereas claim 18 was directed to an elastomer and was devoid of any mention of a lens. The above amendments were proposed as a means of resolving these matters. Applicant indicated that they were amenable to the above changes and authorized their entry by Examiner's amendment.

### ***Terminal Disclaimer***

The terminal disclaimer filed on October 12, 2005 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of the patent evolving from copending application serial no. 10/308,803 has been reviewed and is accepted. The terminal disclaimer has been recorded.

***Allowable Subject Matter***

The instant invention now appears to be in condition for allowance. While there are numerous example of polycarbosiloxanes in the literature, the Examiner was unable to locate one that was both (i) crosslinkable by virtue of the presence of reactive moieties pendant to, or at the ends of, the polymer and (ii) had a refractive index of at least 1.43 due to the presence of high phenyl group content. Claims 18-20 and 22-24 are allowable.

JP 60-120755 is cited as being of interest, but not particularly germane to, the instant invention for their disclosure of a curable composition comprising polysilalkylenesiloxane bearing SiH groups and an alkenyl-functional polysiloxane but there is no indication that the former possesses a refractive index within the range mandated by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc S. Zimmer whose telephone number is 571-272-1096. The examiner can normally be reached on Monday-Friday 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Randy Gulakowski can be reached on 571-272-1302. The fax phone
